Part of
Public Record

Dear Sir:

Red Star Yeast & Products Company, a division of Universal Foods Corporation, Milwaukee, Wisconsin, is a yeast manufacturing company that is a major user of rail service in the U. S. and Canada. The purpose of this letter is to comment on the issues to be discussed on March 8, 2000 in Ex Parte 582.

We encourage the Surface Transportation Board to focus on whether the proposed CN-BNSF combination is good for shippers, not on potential downstream effects. The CN-BNSF combination should be judged on its merits and if other carriers propose mergers, then these cases ought to be evaluated on their merits.

The timing of the proposed CN-BNSF combination is not the central issue for our company. Our concern is service. Recent mergers have failed on service, not because of timing. Accordingly, the Surface Transportation Board should focus on ensuring the CN-BNSF combination, and any other future mergers, will deliver on service commitments.

The Surface Transportation Board has a comprehensive process to evaluate railroad transactions and protect the public interest. It should fairly evaluate the CN-BNSF combination according to that process. Do not let other railroads use the Surface Transportation Board process to protect themselves and not the shipping public.

Sincerely,

Paul F. Rasmussen
Manager, Commodities Procurement
Red Star Yeast & Products
